

Hi Kids!!!

Has this year been crazy or what? None of us have ever been through anything like this. If you are like us, your world has literally been turned upside down in the blink of an eye, and you probably have LOTS of questions about camp. Maybe you're wondering: Am I going to have fun? How is camp going to be different? Will I be safe at camp? Will I ever get to see my friends? And a whole bunch of other things. So, let's answer some questions right now.

- YES, things will be different—first, we are going to be washing our hands A LOT more! That is one of the best ways we can all avoid getting sick.
- Sometimes we are going to wear masks BUT NOT ALL THE TIME. We are only going to wear masks when we have to be really close to each other, like during rainy day, but most of our day will be mask-free.
- We're not going to be all squished together at the lunch tables! There will be plenty of space for us all to spread out.
- Our days are still going to be filled with tons of fun games and activities! We are hard at work figuring out how to put *fun new twists* on the activities you know and love, so we can be safe, and even invent NEW games to add to our summer schedules – wait till you play Pot Ping!!!
- You're going to have more space in the locker room—Yippee!!!
- Your camp bag is going to get a lot bigger!! You are going to be bringing more stuff from home, so you don't have share with other people. No more worrying about who broke the blue crayon, or who the person was sitting on the mat before you that was all wet.
- We're still having our amazing swim program and pool parties!! You're going to have more space to swim and play, and hardly any line for the diving board.
- Most importantly, you are still going to be surrounded by a group of staff and campers who care deeply about you and want nothing but the best for you.

Let us be perfectly clear, YOU ARE GOING TO HAVE A GREAT SUMMER!!! You are going to be outside, away from the computer, playing games, walking in the creek, making new friends, and going home tired and dirty, but with clean hands!!! We can't wait to see you!!
